GUARANTEED EMPLOYMENT

Paid Work Experience and an almost 100% Employment Rate

Alpine graduates know that employment placement is virtually guaranteed. This fact results from a combination of two things. The first is the consistent coaching that all Alpine students encounter throughout their time with us. Developing communication and presentation skills are offered as part of the professional development course. The second is the dynamic Career & Placement Office on Campus that is constantly assisting new graduates with their selection of career opportunities and instructing them on interview skills and assessment of their new-found opportunities for launching their career.

ONCE AN ALPINE GRADUATE, AN ALPINE FOR LIFE!

We don't stop there. Former graduates return again and again for refresher courses, career advice and of course the many social gatherings that help promote the Alpine Alumni Ambassadors Association.

Leading the way across the Globe!

Alpine's wide portfolio of courses offers a great variety of employment choices to its graduates. With the world-class qualifications earned through Alpine, our graduates are targeted by global organizations in the areas of hospitality, travel and tourism related sectors that include hotels; restaurants; airlines; industrial catering; convention organizers; event management; theme parks; sports and health centers; cruise line management; tourist offices; travel agencies; entertainment and casinos; and computer software companies.

We also boast several graduates that have chosen to "go-it-alone" as entrepreneurs, choosing to establish their own successful and flourishing businesses or managing the existing family business.
